

Tec-Sem AG

Tec-Sem Group AG is a leading provider of high-tech solutions to the global semiconductor industry. Tec-Sem Group AG directly owns highly innovative and specialized Semiconductor Equipment Manufacturing companies that develop and manufacture Wafer and Reticle Management Systems.

Our equipment is environmentally friendly and enhances customers' competitiveness. Tec-Sem Group's teams of experienced and highly qualified sales and service professionals support the Semiconductor Manufacturers worldwide. The group owns a portfolio of private equity participation from the time before it changed into an industrial holding company; these investments are being prepared for exits.

The Tec-Sem Group AG located in Tägerwilen / Switzerland.
